IFESINACHI PASCHAL OBIORA

FULLSTACK SOFTWARE DEVELOPER

07881167685 || ife.obi61@gmail.com || github.com/pasify || portfolio

PROFILE

Full-stack developer with 3+ years shipping web and mobile products, specialising in React and React Native frontends backed by Node.js and SQL/NoSQL data layers. MSc Computer Science (Commendation), Northumbria University. Delivered production platforms for fintech, ed-tech, and e-commerce clients from discovery through launch.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, Java, SQL
Frontend: React.js, Next.js, Vue.js, React Native, Tailwind, CSS/SCSS/LESS
Backend & API: Node.js, RESTful API design, Event-driven patterns, .NET Core (familiar), Spring Boot
Databases: PostgreSQL, MongoDB, Firebase, Supabase, Turso/libSQL
DevOps & Cloud: Git, Docker, CI/CD (GitHub Actions/GitLab), Vercel, Netlify, AWS (familiar), Azure (familiar)
Practices: Agile/Scrum, Client Collaboration, Team Leadership, Problem-Solving, Adaptability

EXPERIENCE

Front End React Native Developer (Volunteer) | *One Sky Collective* *May 2025 – Present*

- Built modular React Native/TypeScript screens from Figma wireframes, matching designs pixel-for-pixel across iOS and Android.
- Integrated public APIs and reusable cross-platform components supporting multi-screen navigation.
- Improved accessibility with tab navigation and screen reader labels.

Technical Founder & Software Developer | *Kogniti (Freelancer)* *Aug 2024 – Present*

- Led frontend design and delivery for 3+ web and mobile products, from discovery through launch.
- Built Akada-ng, an ed-tech loan platform for teachers, improving user satisfaction by 30%.
- Translated direct debit and repayment workflows into clear, step-by-step user journeys.

Frontend Developer | *Agunwami Enterprise* *(Part-time, Remote)* *Jan 2024 – Aug 2024*

- Designed responsive UI for Shop-Agu, a cross-platform e-commerce app serving 100+ users.
- Reduced page load times by 25% by integrating RESTful APIs into scalable frontend components.
- Led frontend development for a school management dashboard with role-based access for admins, teachers, and students.

Volunteer Frontend Developer & Team Lead | *Speak Out Africa for Children* *Feb 2023 – Jul 2023*

- Built a responsive website serving 100+ users, improving access to educational resources.
- Improved user engagement by 15% through accurate UX/UI implementation.
- Led a team of 5 developers, delivering all project deliverables on schedule.

FEATURED PROJECTS

- RepoRover — GitHub discovery app built with Vue.js (first Vue project); API integration, reactive state management.
- Easyly Card — Ed-tech direct debit loan platform for teachers, 100+ active users; React.js, Turso (libSQL).
- Recipe Generation App — React app with TanStack Query and Hugging Face API integration for AI-generated recipes.
- FinFuze — Financial account management app with Firebase Authentication and secure data storage.
- FlixBox — React-based movie search app; interactive search and playlist flows, responsive across devices. React, Tailwind CSS.
- Nim Game — Extended a partial OOP codebase with a Java Swing GUI, custom AI strategy, undo/save/load functionality, and the observer-observable pattern; full test plan and design documentation.

EDUCATION

MSc Computer Science (Commendation) | *Northumbria University, Newcastle upon Tyne* *2026*
Relevant modules: *Website Development & Deployment (PHP), Database Modelling, Computer Networks & Operating Systems, Object-Oriented Programming (Java), Systems Analysis & Design with UML, Research Methods & Project Management.*
Dissertation: *Explainable, Uncertainty-Aware AI-Based Ransomware Detection using Conformal Prediction, SHAP, Random Forest, and CNN with Monte Carlo Dropout.*

Applied Data Science Lab, WorldQuant University — 8 end-to-end ML/data science projects (ML pipelines, statistical modelling, data visualisation) *2024 – 2026*

CERTIFICATIONS

- Back-End Web Development — IBM, Apr 2026
- Front-End Web Development — IBM, Mar 2026
- Certificate of Completion in Frontend Development — DevCareer Tech Program & Alt School Africa, Apr 2024
- JavaScript Essentials, Level 1 — OpenEDG JavaScript Institute & Cisco Networking Academy, Sept 2023
- C#.NET Core Certification — Makintouch Consulting & Loopskill.com (LS626942131)
